EDUCATION

2023-2026
FEDERAL URDU UNIVERSITY

- Bacehlors in Finance

2024-2026

GIAIC COURSE

SKILLS

- JavaScript/Typescript
- React
- Nextjs
- Version Control
- Cross-Browser Compatibility

LANGUAGES

- Urdu (Fluent)
- English (Intermediate)

PROFILE

I'm a dedicated software developer with a passion for building scalable, secure, and user-focused applications. With extensive experience in creating robust staging environments, I ensure that every project is thoroughly tested, well-documented, and optimized for performance before moving to production. My expertise spans configuring secure environment variables, implementing automated testing suites, and maintaining organized, transparent codebases on GitHub.

I believe in leveraging best practices and innovative solutions to overcome complex technical challenges, all while keeping the end-user experience in mind. Whether it's deploying a fully functional staging marketplace or fine-tuning performance metrics, I take pride in delivering high-quality, reliable software.

WORK EXPERIENCE

I have a solid understanding of JavaScript and TypeScript, with experience in building dynamic and responsive web applications. I am proficient in using React to create interactive user interfaces and have hands-on experience with Next.js for server-side rendering and static site generation.

Recently, I developed a Q-commerce rental website, where I applied my knowledge of these technologies to create a seamless user experience, including features like product listings, user authentication, and payment processing. I am passionate about leveraging my skills to build scalable and efficient applications while continuously learning and improving my technical abilities.
